No violations cited.

Inspection Temperature Observations

No Temperature Observations

Overall Inspection Comments

Joint unannounced inspection with Shanae Acevedo post a Managerial conference conducted on 11/17/2017. Inspection resulted in 43 demerits, a closure score. See her inspection report for findings. As a stipulation of the Managerial conference, a failed inspection results in a permit suspension pending a revocation hearing if the owner/operator so requests. The facility was posted closed and the operator was issued a Permit Suspension Pending Revocation letter in both Traditional Chinese and English. A hearing may be requested in writing within 5 business days if the operator would like to appeal the revocation.
